Requirements:

- Establishing a detailed program specification through discussion with customers and consultant*
- Breaking down program specification into its simplest elements and translating this logic into a programming language*
- Devising possible solutions to predicted problems, evaluating other options*
- Combining all elements of the program design and testing it.*
- Testing sample data sets to check that output from the program works as intended*
- Reacting to problems and correcting the program as necessary*
- Increasing program operating efficiency and adapting to new requirements, as necessary*

- ❑ *Writing detailed documentation for the operation of the program by users and computer operators*
- ❑ *To perform Internal Tasks on demand from the IT manager*
- ❑ *To keep updated on known technologies and to self-study extra technologies*
- ❑ *To report and document all work done in the invoicing system and to do a month end close*
- ❑ *To attend project meeting on PM demand.*
- ❑ *To attend specific technical information events, trainings or get certifications on demand.*
- ❑ *French and a good level of English spelling and grammar*
- ❑ *Very good communication skills*

We offer:

- ❑ *Opportunities to quickly increase your technical competency base.*
- ❑ *Integrate a young and dynamic team.*
- ❑ *Will be followed and managed by an experienced consultant.*

Period:

- *March to July 2013*
- *September to December 2013*
